Kevin,

Last time we spoke to Tim about GOI requirements he asked us to have our partners work with the in country ministerial counterparts to determine if they (the ministry) required an IA or not. We learned that P&R's primary counterpart was fine proceeding without one.

Any update on the Predict side? Obviously NOT having to do an IA is preferable, but if the ministries require one, then we need to work with the mission to figure out how to proceed.

If they do not require one, we also need to notify the mission so an update would be greatly appreciated.

Many thanks!
Alisa
